Captains Cabin:	-		

## DESCRIPTIONS

### Manufacturer Provided Description

With the power to handle heavy seas and the rugged, good looks MAKO is famous for, the 264 Center Console has the size and speed needed in open waters. Built in the MAKO tradition, it boasts a tougher-than-nails disposition, a smooth, dry ride and a long list of standard equipment. An aggressive V hull is combined with a bow layout that offers maximum usable deck space without sacrificing storage. A one-piece, foam-injected fiberglass

stringer grid enhances strength and rigidity. An optional, custom-matched aluminum trailer with oil bath hubs and sealed-circuit LED lights is also available. This may be our finest 26-foot center console yet.
